Backend Technologies — Node.js, Express.js, Postman

DataBase Technologies — MongoDB

Version Control — Git, Github

Others — vercel, netlify, render

PROJECTS

PassOP: A Secure Password Manager 🔗
React Project - PassOP: A Secure Password Manager
  PassOP is a password manager application that allows users to securely perform essential CRUD operations such as saving, updating, and deleting their passwords. It uses React hooks for state management and side effects, and **localStorage** for persistent **data storage**. The UI is styled with Tailwind CSS, and notifications are handled using react-toastify.

E-Commerce-Website 🔗
HTML, CSS, and JavaScript Project
  The website will be built using HTML, CSS, and JavaScript, with a focus on responsive design and accessibility. The website will include various features such as product listing, product filtering, user authentication, shopping cart, and checkout functionality.

StudySyncWebsite 🔗
HTML5 & CSS3 Project
  Developed a dynamic and responsive HTML/CSS website for a fictional educational platform, StudySync, showcasing its features, benefits, and testimonials. Utilized advanced CSS techniques, such as flexbox and grid, to create a visually appealing and user-friendly interface.

Myntra-Clone 🔗
Myntra React Clone: E-Commerce App with React Router, Redux, and Bootstrap
  Myntra React Clone: E-Commerce App with React Router, Redux, and Bootstrap. The project integrates React Router Dom for navigation, Bootstrap for styling, and Redux for state management.

CERTIFICATES
